

REQUEST FOR APPROVAL OF A COGNATE

To be eligible to be counted as a cognate, a course offered by the Mathematics Department must:

- 1) Treat ideas, techniques, or patterns of problem solving distinctly different from those of the student's major area.
- 2) Involve significant intellectual content that is important in an area of science other than Mathematics.

Please explain below, how the course you propose satisfies these requirements:

Student Name: _____

Course: _____ Credit Hours: _____ Term: _____

Approved by Instructor of Course: _____

Approved by Student's Doctoral Committee
Counselor of Thesis Advisor: _____

Approved by Chairperson of the Doctoral Committee: _____
