

SATURDAY MORNING PHYSICS

WINTER 2020 10:30-11:30 A.M.

170 & 182 Weiser Hall — Central Campus

FREE ADMISSION

February 8

The Universe Caught Speeding: Dark Energy, Two Decades After

Dragan Huterer, Professor (U-M Physics)

February 15

Ocean Modeling: Big Computers, Big Science

Brian Arbic, (U-M Department of Earth and Environmental Sciences)

February 22

The Truth About Entropy

Sharon C. Glotzer, J.W. Cahn Distinguished University Professor (U-M Engineering and U-M Physics)

March 14

The Light Fantastic

Alec Thomas, Associate Professor (U-M NERS and U-M Physics)

March 21

Exploring Titan with Dragonfly!

Ann Parsons, Astrophysicist (NASA Goddard Space Flight Center)

James Robert Walker Lecture

March 28

Climate Change in the Arctic: The Situation on the Northern Front

Henry Pollack, Professor Emeritus (U-M Department of Earth and Environmental Sciences)

April 4

Falling, Spinning, and Shining: Demystifying the World of Physics

Elizabeth Drueke, Callum Jones (U-M Physics Graduate Students)

Joseph Iafrate (U-M Applied Physics Graduate Student)

Van Loo Family SMP Lecture

April 18

Smart Marine Vessels, Energy Harvesting and Energy Saving Devices

Julie Young, Professor (U-M Naval Architecture and Marine Engineering)
