

# M URO

UNIVERSITY OF MICHIGAN

Outstanding Research Mentor  
Elizabeth Duval, Ph.D.  
Clinical Lecturer and Research Fellow  
Psychiatry, Medical School

Elizabeth Duval was nominated by:  
Karlin Stern and Anna Haynes

*Dr. Duval's calm and thoughtfulness extends much farther, reaching beyond our academic experience. Her presence has significantly improved this year for me, and I have felt so reassured in knowing that I have her support should I need it. I know that I will try to replicate her thoughtfulness in my own leadership style, as I have seen firsthand how such caring guidance can make an enormous difference in someone's daily experiences. We are very grateful to have had the opportunity to work with such a wonderful mentor as she is.*
