

## Workload Expectations for Lecturers in EEB

In the College of Literature, Science and the Arts, the normal 100% teaching load for a Lecturer is six (6) courses per University Year, three (3) each during the fall and winter terms. The Department of Ecology and Evolutionary Biology (EEB) follows the College's workload standard. In addition to teaching responsibilities, LEO Lecturer IVs will also be assigned administrative and/or service duties to meet the needs of the Department of EEB. This may include the EEB Curriculum Committee, Academic Advising, or other appropriate committee assignments.
