

## Wagner Bursary Application

*Each year the Wagner fund awards two or three grants to help English Capstone students acquire the materials or experience they need to complete particularly ambitious projects. Awards come from a limited pool of approximately \$250 and may be used to help support trips to archives or other sites related to students' work; apply early. They may also be used to buy books or other materials not easily available but necessary to a given project. Applicants must first discuss their applications with the Director of the program.*
