

LAMP QUEST

Before electricity was invented, people used oil lamps for light. Some lamps were plain. Some lamps were decorated. Lamps were made of clay, metal or glass. Look through the museum to find these lamps!

3

Do you see the soot at the tip of this lamp? This lamp was used over a thousand years ago.

4

Gladiators are fighting on this lamp!

5

6

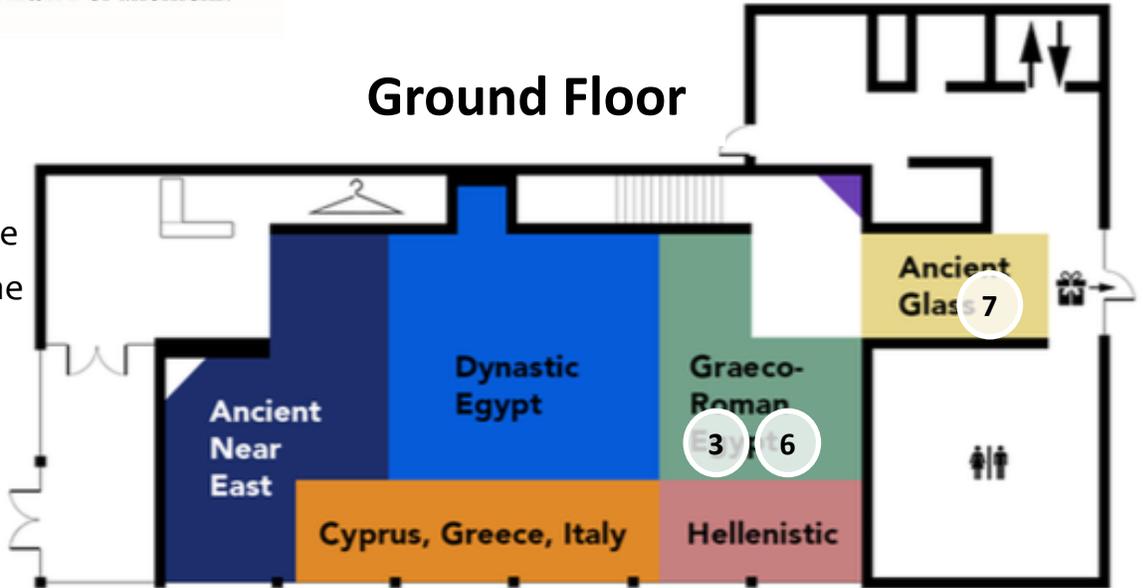

7

Light would shine through this glass lamp. How pretty!

Ground Floor

Once you start looking, you will see so many lamps in the museum!

Can you imagine a world without electricity? How many light bulbs do you have at home?

Second Floor

Open the drawer marked with the star on the map to learn more about lamps found by University of Michigan archaeologists.
