THE *largest* OF U-M'S 19 SCHOOLS AND COLLEGES

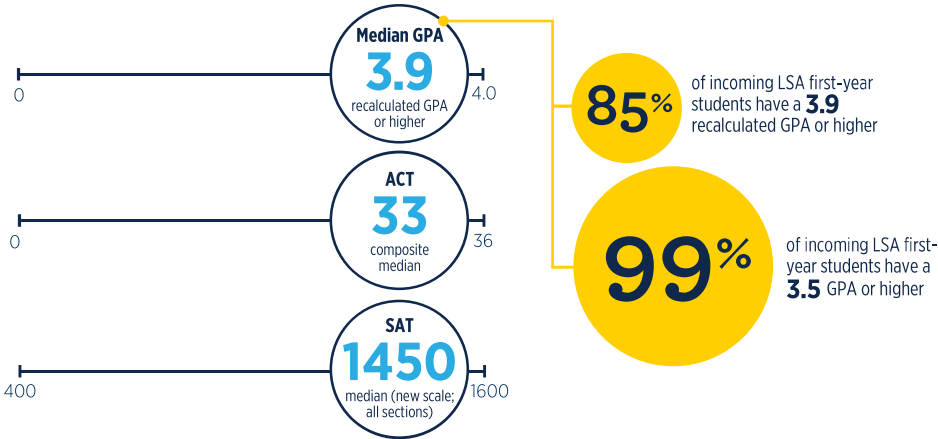

Since 1841, the College of Literature, Science, and the Arts (LSA) has been educating young leaders through a rich liberal arts curriculum and creating new knowledge through world-class research and scholarship. The college is built upon the cornerstone of the liberal arts: the idea that a powerful, pragmatic, broad education can transform hearts and minds, solve problems in an ever-changing world, and yield ideas and innovation across every discipline.

We offer **more than 85 majors and sub-majors** and over **100 minors in 41 academic departments**. Through the LSA Opportunity Hub, students can make the most of what they learn by pursuing internships, finding mentors, and connecting with a broad network of employers and alumni. In fact, we have one of the largest alumni networks in the world, with **243,593 living LSA graduates**.

As the largest college at U-M, with **41 programs ranked in the top ten**, LSA continues to build on an established tradition of educational excellence.
