

WOMEN IN SCIENCE AND ENGINEERING RESIDENCE PROGRAM

A tight-knit student group growing and learning together as emerging STEM leaders

The Women in Science and Engineering Residence Program (WISE RP) is an academically supportive living-learning community working to balance the participation and persistence rates of women and other gender minority students interested in academic majors and careers in the sciences, technology, mathematics, engineering, and/or pre-health. Programming helps students align their academic interests and goals with their lived experiences and perceptions while building leadership competencies. The team strives to ensure community members leave the experience with increased self-efficacy and a greater sense of how they hope to make an impact on their respective fields of study.

WISE RP STRATEGIC FUND

Contributions of all sizes to the Strategic Fund will support WISE RP students pursuing co-curricular, high impact experiences like internships and summer research fellowships in the STEM fields. In addition, funding advances new initiatives like WISE RP's STEM focused study abroad experience in Cape Town, South Africa, as well as support for career exploration opportunities, including site visits, alumni engagement, and industry observations.

WAYS TO FUND YOUR GIFT

Your partnership connects the college's rich past to a boundless and bright future. You can change lives with gifts of cash, pledges, or appreciated securities, and create a meaningful legacy through your bequest, trusts, gift annuities, and other planned gifts. Your generosity makes an impact on what's next, for a better tomorrow.
