line size between each layer of people

When using the line element on canvas if you press shift while dragging the line it will make sure the line remains straight/parallel

formatting for supervisor boxes

IT Program Manager
Laura Shelp

The font of the title is bolded and the line spacing between the title and name is 2. The line spacing between different lines of the title is 1.4. This formatting is the same for team boxes with one line break between each person.

If you combine the boxes into a group you can then change the size proportionally for each box at once and then ungroup them to edit text.

copy + paste is going to be the best option when trying to create new elements and wanting to maintain formatting.
