

# SOC 310 FUNDING OPPORTUNITY REQUEST

The Sociology Department will provide up to \$75 to students with financial need to help cover research expenses related to their projects in SOC 310. To be eligible for funding, a student must have previously applied for financial aid through the UM Office of Financial aid.

Applications must include 3 things, all combined into one document:

1. This form
2. Your statement
3. Receipt from Prolific (or detailed statement of expenses/budget if not using prolific)

- Applications due by December 1 in Fall term or April 1 in Winter term. Applications will be reviewed shortly thereafter and decisions will be sent within 2 weeks of the deadline. If approved, you will receive an official award letter indicating the amount of funding. All awards will be disbursed through the financial aid system. If you have a financial aid package, this award may or may not impact on your other aid. Please contact the office of financial aid for more information. Students may be given full or partial awards.
