

# M UROP

UNIVERSITY OF MICHIGAN

## Outstanding Research Mentor William F. Carson IV, Ph.D.

Research Assistant Professor  
Pathology, Medical School

William F. Carson IV was nominated by:  
Yesen Zhou

*Dr. Carson listens to me and often knows more about the topic before I finished talking. He respects me even when I don't know what I am asking. I almost always learn something new from him in each conversation. Dr. Carson retained the role as an educator even when outside of the classroom and he has been providing me the kind of education I yearned for when I came to this institution. He has been more than just a research mentor to our lab. He has provided me the BEST kind of research experience I could have sought in an undergraduate setting.*
